

Stay up-to-date: our free LASER World of PHOTONICS newsletter

SAVE THE DATE

LASER World of PHOTONICS

Date: Jun 24 - 27, 2019

The LASER World of PHOTONICS newsletter provides regular updates on the latest and most important developments in photonics.

Let our LASER World of PHOTONICS newsletter get you up to speed and benefit from **news and exclusive information** on the most relevant and innovative developments in the field of laser technology. It will also keep you updated with relevant information on the world's leading trade fair in the field of photonics—convenient and free of cost.

All benefits of the newsletter from the world's leading photonics trade fair at a glance:

- ✓ Free registration
- ✓ News and updates on trade fair and congress
- ✓ Laser systems and technologies of the future for various specific fields such as image processing, biophotonics, measurement and production engineering, material processing and many more
- ✓ Tips for planning your visit
- ✓ Markets and current trends
- ✓ Exclusive photonics interviews with leading executives and industry experts
- ✓ Current topics reduced to the essentials with photonics compact

To register for the LASER World of PHOTONICS newsletter, please complete the fields below and send us your application by clicking on "Submit". All you have to do then is confirm your registration in the mail from Messe München and you will receive regular valuable information and updates.
